

In the light air beside cliffs and sky  
Esoterically night  
Beyond the sun  
Beyond the vines

Whispered days before  
A familiar road  
Whispered days before  
Endless fields of rose

Come now solace  
An endless haze of green  
Cure the cadaverous minds  
When we were trees  
When we entwined

Whispered days before  
A familiar road  
Whispered days before  
Endless fields of rose
