Crash

Sum 41

C G D2 C G

```
   C       G             Ami                 F
1. Hold me now, 'cause I couldn't even if I tried
   C         G      Ami                   F
   It's over now, I guess it really is my time
     Ami           C            Ami                  F
   I don't want to go, but it's time I gotta say goodbye
      C       G           Ami                    F
   So hold me now, 'cause this will be our last time
```

C G D2 C

```
2. I'm slowing down, and I don't think that I can fight
   I know somehow, you'll find a way to live your life
   Remember just to live everyday like it's your last
   And hold me now, 'cause I think it's time for me to pass

   F             G                 Ami
R: I don't wanna die, I don't know why
   This kind of fate was meant for me
   F             G                 Ami
   You gotta be strong, gotta move on
   It's not how it was supposed to be

   F        G
   What you wanna say?
          Ami
   It was never supposed to end up this way
   F         G
   What do I have to do?
          Ami
   When supposed to grow old with you

   F                   G
   But that ain't gonna happen
   F                   G
   No, that ain't gonna happen

3. Hold me now, 'cause the time I've got running now
   No tears allowed, even though we've become without
   I just wanna feel your head lying on my chest
   So hold me now, as I take my last breath

R: I don't wanna die...

   What you wanna say?...

   But that ain't gonna happen...
```
