

# Time Won't Wait

Sum 41

It's about time I called up to meet you  
Don't say it's too late to make a move  
I know what us two could lead to  
Heartaches, good sex and some bad tattoos

All night I'm out on a mission  
Let's say we meet up at 4 AM  
I don't know what I must be thinking  
I keep telling myself to

Get out, get out, get out  
You'll never make it  
I know, I know, I know  
She's gonna bring me down  
Too late, too late  
I can't escape it now  
'Cause I don't think that I can trust myself  
I will screw it up right now  
And I would make a great mistake  
And all I really know is time won't wait

More nights that I can't remember  
And more days that seem like they're just a blur  
You're like a brand-new adventure  
In some ways I feel like you're just the cure

I'm not just playing the victim  
'Cause these days and nights, they all just repeat  
I don't know what I must be thinking  
I keep telling myself to

Get out, get out, get out  
You'll never make it  
I know, I know, I know  
She's gonna bring me down  
Too late, too late  
I can't escape it now  
'Cause I don't think that I can trust myself  
I will screw it up right now  
And I would make a great mistake  
And all I really know is time won't wait

Time won't wait

All night I'm out on a mission  
Let's say we meet up at 4 AM  
I don't know what I must be thinking  
I keep telling myself to

Get out, get out, get out  
You'll never make it  
I know, I know, I know  
She's gonna bring me down  
Too late, too late  
I can't escape it now  
'Cause I don't think that I can trust myself  
I will screw it up right now

And I would make a great mistake  
And all I really know is time won't wait
