

Remember

Summer Camp

Remember

Remember those nights when the lights stayed on a little longer

Remember the moments before the sun came up

Remember

And I don't wanna feel it if you can't feel it (I can feel it)

I don't wanna feel it if you can't feel it (I can feel it)

I don't wanna feel it if you can't feel it (I can feel it)

I don't wanna feel it all (I can feel it all)

I could

(I could)

I could

(I could)

I could dream a dream of you

And you, you, you, you could dream it, too

I could dream a dream of you

You, you, you, you could dream it, too

I could dream a dream of you

And in the mornin' we'll be one day older

One day

One day

One day

One day

One day

One day

Remember where the something all through the summer

Remember the sky turned blue to black back to grey

And I don't wanna feel it if you can't feel it (I can feel it)

I don't wanna feel it if you can't feel it (I can feel it)

I don't wanna feel it if you can't feel it (I can feel it)

I don't wanna feel it all

And I could

(I could)

I could

(I could)

I could dream a dream of you (I could dream a dream of you)

And you, you, you, you could dream it, too

I could dream a dream of you (I could dream a dream of you)

You, you, you, you could dream it, too

I could dream a dream of you

And in the mornin' we'll be one day older

One day

One day

One day

One day older

One day

One day

One day

One day older

I could dream a dream of you (I could dream a dream of you)
We'd be one day older (We'd be one day older)
I could dream a dream of you (I could dream a dream of you)
We'd be one day older (We'd be one day older)
I could dream a dream of you (I could dream a dream of you)
We'd be one day older (We'd be one day older)
I could dream a dream of you (I could dream a dream of you)
We'd be one day older (We'd be one day older)
