

Round The Moon

Summer Camp

"Imagine giving me the evil eye"
"What?"

Fly over the surfs with me
Little darlin', gonna be alright
There's no one gonna see us runnin'
No one out lookin' for us tonight

And we'll sleep in our clothes
In the forest, down by the river
We'll forget everything we've done
And we'll dance

And we danced all night
And we'll hold each other close
Till the morning light
Come on home with me and it'll be all right

Come count the stars with me
Little darlin' you're lookin' so fine
Here the freight train in the distance
We've got smokes and a bottle of wine

And we'll sleep in our clothes
In the desert, back by the highway
We'll remember everything we've done
And we'll dance

And we danced all night
And we'll hold each other close
Till the morning light
Come on home with me and it'll be all right
It'll be all right

Come and hold my hand so tight
Little darlin', you seem so small
From the hill we can see the sights
From the market to the castle wall

And we danced all night and we held each other tight
Till the morning light
We danced all night and we held each other tight
Til the morning light
(Danced all night)
We danced all night and we held each other tight
Til the morning light
(Hold each other tight)
