

When Danny Met John

Summer Camp

Danny's a painter but he's running out of ideas
John's been singing the same song for 15 years
It's been so long since they shared a kiss
Their hearts beating together in that bittersweet bliss

Back then Danny could never sit still
John was always trying to find him some time to kill
Danny up and left in the middle of the night
John woke up with a hangover in the cold morning light

Oh, don't look for me
Oh, don't talk to me
But I still dream of you every night

Danny bounced around from place to place
He tried to keep it together but he lost his way
He fell in love with everyone he met
As he inched closer to 40 his only friend was regret

But then he heard that John was playing a show
He couldn't stop thinking about it he really wanted to go
His hands were shaking as he walked into the room
John looked so small on stage but his face shone like the moon
His face shone like the moon

We were so young
Oh, John played his song

I still dream of you every night
I still dream of you every night
And when I wake up you are on my mind
And I still dream of you every night

I still dream of you every night
I still dream of you every night
That when I wake up you'll be by my side
And I still dream of you every night, oh

(Dream of you every night)
I still dream of you
(Dream of you every night)
When I wake up you are on my mind
(Dream of you every night)
Dreaming, dreaming, dreaming
(Dream of you every night)
Every night
(Dream of you every night)
Dreaming
(Dream of you every night)
(Dream of you every night)
When I wake up you're by my side
(Dream of you every night)

I still dream of you every night
I still dream of you every night
And when I wake up you are on my mind
And I still dream of you every night
