

Women In Love

Summer Camp

She's been living in a night for so long
But every night she checks the weather
In her old hometown
She's sleeping with the lights on
And she never has time
To calm you down

And this woman's in love
This woman's in love
This woman's in love
With you

After work every Friday
She swims in the sea
And turns her pink lips blue
She's holding out for summer
But says she misses the snow
What can you do

And this woman's in love
This woman's in love
This woman's in love
With you
And this woman's in love
This woman's in love
This woman's in love
With you

And all this time you've waited
She was waiting too
You can't believe you found her

And you can't believe
That she's in love with you

She always sleeps in on Sundays
And rides her bike across town
To come see you
She drinks coffee after midnight
And never cuts her hair
What can you do

And this woman's in love
This woman's in love
This woman's in love
With you
And this woman's in love
This woman's in love
This woman's in love
With you

And all this time you've waited
She was waiting too
You can't believe you found her
And you can't believe
That She's in love
She's in love

She's in love with you
In love with you
She's in love with you

She's in love
She's in love
She's in love
She's in love
