

## Best Part Of Me

Summer Salt

I've been looking forward  
To getting back on the floor  
Where no one can dance quite like  
Angelina Amore  
So won't you talk to me  
I know you're kind of shy  
But I'd love to get to know you more  
Her smile'll be my own keepsake  
Without her my life's a bore

You know the best part of me  
Is having her around  
When we're wasted on the beach  
And everything's burning down

She's another water sign  
Swimming in the evening shore  
With waves of alebrije paint  
And crystals on a curse galore  
So call her Reyna Reyna  
Don't call her Angie  
No one can call her Angie but me  
Call her Taryn she's an earth woman  
She's a bad one  
A lover in war

You know the best part of me  
Is having her around  
When we're wasted on the beach  
And everything's burning down

You know the best part of me  
Is having her around  
When we're wasted on the beach  
And everything's burning down

Well there goes the ribbon as you let your hair down  
You cut it all off  
Moved into a honeycomb house  
Where you found a living making jewelry in town  
With your family  
And your father who tells me

"If only I could make a ring good enough for her  
Then she'd be married to you now"

Because the best part of me  
Is having her around  
When we're wasted on the beach  
And everything's burning down

You know the best part of me  
Is having her around  
When we're wasted on the beach  
And everything's burning down
