

Bottleneck

Summer Salt

There is an angel
Watching over me
I can feel her
In the way the porch light
Flickers to the beat
And in the morning
I'll be up before the sun
For the only time
We get to spend alone

I pack the suitcase
For the family
Gone where the wind blows
Turning rock to pebble beach
Watch the world turn
Dig my feet into the sand
And sip from a bottleneck

Barbecue and match light
With the empress tonight
Loving a sweet memory
I'll never overwrite
The love of my life
Makes sure I wear my evil eye
So I survive
I survive

I know that someday
I'll watch the kids run
Be that old man
With crazy stories
Round the sun
As the world turns
Undefeated I'll kickback
And sip from a bottleneck

Barbecue and match light
With the empress tonight
Loving a sweet memory
I'll never overwrite
The love of my life
Makes sure I wear my evil eye
So I survive
I survive

As the world turns
Undefeated I'll kickback
And sip from a bottleneck
