

## Changed

Summer Salt

Between the ocean breeze  
There is a sea it's calming down  
After some lightning  
And oh it's hard to be  
Something different starting clean  
Like a new island

And you're alone now  
Lost in your thoughts  
Try to slow down  
Fighting a fight so just think how  
You could change

Love  
Have I changed?  
Or am I still the same?  
Have I changed?

Emotions held inside  
Like a volcano  
What's the point of the eruption  
Lava turns to stone  
Don't end up all alone  
In your devotion

And you're alone now  
Lost in your thoughts  
Try to slow down  
Fighting a fight you can't win now  
But you can change

Love  
Have I changed?  
Or am I still the same?  
Have I changed?
