

# Gotta Go To Know

Summer Salt

Gotta go to know  
Last thing she told me  
Gotta figure it out  
And get back to wondering

Why the air bends for favors  
If music could save her  
I'd be the queen of the moon  
And why I hurt and I vandal  
To learn every angle  
And send the night into bloom

All my life  
I hope that I loved you enough  
And I'm fine  
But I just can't give it up  
The diamond in the rough  
Oh oh I gotta go to know

Gotta go to know  
Last thing she told me  
Gotta figure it out  
Before I can love anybody

Why the orchids and glaciers  
All beauty in nature  
Pom pom away and adieu  
Fourth dimension or fable  
Who's my Spanish angel  
Where do we go if it's true

All my life  
I hope that I loved you enough  
And I'm fine  
But I just can't give it up  
The diamond in the rough  
Oh oh I gotta go to know  
Oh oh I gotta go to know

Somewhere  
On a morning paper route  
I'm drinking coffee  
Or in the ballet now  
With ruby wings  
Nebulas of jade  
Just always  
Know I'll be around  
Gotta go to know

Fourth dimension or fable  
Who's my Spanish angel  
Where do we go if it's true  
Gotta go to know
