

Oh Dear

Summer Salt

I just can't fake it no more
She sees right through me
Ain't no star in a movie
A life caught in a mystery
And she'll help me figure it out

Oh dear if there's one thing
I happen to wreck
It's the one thing that I'll forget
And just can't get to at all
Oh dear if there's one thing
That I could pretend
It's the light in the right time of day
Making me shine again

I've been waking early
To see her on her lunch break
But I'm never on time
And I ain't got much money
But I've got plenty of sunshine
Spinning my dimes

Well spin it away with me one more day
Save my world with your super powers
Run your telekinetic waves on me
Spin it away, spin it away, spinning

Oh dear if there's one thing
I can't seem to erase
It's the smile left upon your face
As I say I'll catch you tomorrow
Oh dear if there's one thing
That I could pretend
It's the light in the right time of day
Making me shine again

Oh dear if there's one thing
I happen to wreck
It's the one thing that I'll forget
And just can't get to at all
Oh dear if there's one thing
That I could pretend
It's the light in the right time of day
Making me shine again
