

Poolside

Summer Salt

Meet me over by the poolside baby
I just wanna hold your hand
The waters warm here
And it feels alright

Meet me over at the rooftop baby
I just wanna dance the night
Away with you in my arms now
Drift off our hearts floating like clouds
And it feels alright

I'll be right there
If it makes you happy
I love you hundred, that's all the time
You'll be right there
To make me happy
Through every season, that's all the time

Meet me over by the court-side baby
Let me show you how I hoop
And watch me score every point now
Win the game to your heart now
Were in a league of our own now
And it feels alright

I'll be right there
If it makes you happy
I love you hundred, that's all the time
You'll be right there
To make me happy
Through every season, that's all the time

And I could spend my days
With you under the stars (Love you to the moon)
I'd love to spend my days
Holding you in my arms (Love you to the moon)

I'll be right there
Love you a hundred, that's all the time
You'll be right there
Love you three hundred and sixty-five

And I could spend my days
With you under the stars (Love you to the moon)
I'd love to spend my days
Holding you in my arms (Love you to the moon)
