

Rockin My Paw

Summer Salt

It's my day
No ones gonna be bringing me down
Shovel me like a root to the ground
Cause I'm up in the clouds of my neighborhood

And my baby
Ya I've been treating her kind
Ya she gives me chills to the spine
As I climb up the vine
To kiss her goodnight

When everything has gone wrong
I lay around with my puppy dog
When everyone's got me crying
He runs away and I join him for the ride

You know it's my day
Ya I think that love conquers all
Ya I bet you think that I'm small
But I'll be rockin' my paw
On this electric guitar

How lovely
Works all done and I'm homeward bound
Dancing as the records spin round
And the suns slipping down
Cross my living room

When everything has gone wrong
I lay around with my puppy dog
When everyone's got me crying
He runs away and I join him for the ride
