

Under the blue light canopy  
In between I find it's clear to me  
Over my life you've been good to me always

Layover long flight just visiting  
In pink rooms and fire flies in window pane  
Cat crossing your domain so very glad you came  
Never be the same

What a ride round off and fly onto the roof  
Fall into iridescent pools  
Decorated with talavera tiles  
Waterfalls over the castle walls imbue  
A supermoon  
Over honeydew ripples far away

Gardens of sea life with peonies  
The fair rides at night look like tourmaline  
And lemonade stands on a corner by your side

Gas works on hillside in faded jeans  
Or dressed in puebla white embroidery  
Dragonfly pins in your hair so very glad you came  
Never be the same

What a ride round off and fly onto the roof  
Fall into iridescent pools  
Decorated with talavera tiles  
Waterfalls over the castle walls imbue  
A supermoon  
Over honeydew ripples far away  
Honeydew ripples far away
