

# Tricky

Summer Salt

I'm not from around here  
But I come up here  
To merry prank  
Or stretch my bones in the fresh air  
Phantom the opera  
With candelabra  
Deep in the night  
I play my music enchanted  
With gambits and doodads  
I'm boo Radley's comrade  
No coffer can catch me  
I linger on

Now give me the throne  
I'll be the luck of the drawl  
Flip all your coins  
Now you're in my musical  
But take your good caution  
If you bring me to life  
If I'm not impressed  
Then I may give you a fright

Because I'm tricky  
No it don't come easy  
But that just don't stop me  
No no no because I'm tricky

I've been grim reaping  
With tongue and cheek and  
Solving the dungeon  
With my book of mudora  
Full inventory  
Trinkets and jewelry  
Deal with the devil  
With no worry or panic  
I menace emotion  
With mystery potion  
It's your favorite flavor  
I linger on
