

Two Of A Kind

Summer Salt

We've been alright dreaming echo's upon our shelves
With the records we love
The one's our parent's loved as well

When we were in school you were always trying to talk me into
Running away by your side
Stealing the day the through
When you'd say

Come on come on
Row with me
We're two of a kind
Sailing an empty sea
And if ever the waves
Roll us home again
None can say
So come on come on
Row away

I remember when you had no where to go I'd welcome you in
Your shinobi ways round for days
Becoming my best friend

There's no going back with all the rails been torn off the track
Howling away at the moon
You're always part of my pack
When you say

Come on come on
Row with me
We're two of a kind
Sailing an empty sea
And if ever the waves
Roll us home
A long time may take
So come on come on
Row away
