The shit that I be on
It be honest
I trust a bitch, see flames if it's coming
Her nigga on me and he want it
And I'm with the shit, slim thick, early twenties

I seen the shit I see
But no responding
Bitch, better check ya speak ebonics
But I know the book you reading
I swear these bitches be slow

It's the shit that bitches be hating on
'Cause they know if I let him hit it
That nigga is gone

It's the threat that thing might lose control
'Cause if I let him hit it
That nigga is gone

Dat right there (Dat right there, dat right there)
Dat right there
Dat right there (Dat right there, dat right there)
Dat right there

Dat right there (Dat right there)
Dat right there
Dat right there
Dat right there

'22 the year we flying up
Bitch, I'm freeing niggas, flying up
Sneaky link niggas wanna get deep in it
For shits and giggles, make a nigga repeat it

But for real, the bitch is on her game
You best believe I'm serving, say (Yee)
And the money all here and a bitch is yours

It's the shit that bitches be hating on
'Cause they know if I let him hit it
That nigga is gone

It's the threat that thing might lose control
'Cause if I let him hit it
That nigga is gone

Dat right there (Dat right there, dat right there)
Dat right there
Dat right there (Dat right there, dat right there)
Dat right there

Dat right there (Dat right there)
Dat right there
Dat right there
Dat right there

It's the smoke thing I'm on with
When I hit that switch
Never know when it's all gon' click
When it's all gon' click

It's the smoke thing I'm on with
When I hit that switch
Never know when it's all gon' click
When it's all gon' click

It's the shit that bitches be hating on
'Cause they know if I let him hit it
That nigga is gone

It's the threat that thing might lose control
'Cause if I let him hit it
That nigga is gone

Dat right there (Dat right there, dat right there)
Dat right there
Dat right there (Dat right there, dat right there)
Dat right there

Dat right there (Dat right there)
Dat right there
Dat right there

It's the smoke thing I'm on with
When I hit that switch
Never know when it's all gon' click
