

# Finally Over It

Summer Walker

Oh, it's over  
All the mess, over  
All the stress, over  
Oh, no more crying in public  
Our love bipolar  
Finally over  
Oh, for you I pray

Sure you wanna share your last name with me?

Baby, I'm sure I do  
With you, love doesn't hurt  
Love is for better or worse, so I do  
I do  
Don't know what you see  
But you take me and all I carry, so I do

No one else can take it  
Say I'm overcomplicated  
I got too many issues I never solved  
I've been jaded, I have questions  
All the good ones taken  
So for me, you must've been waiting  
Forever used to sound impossible

Sure you wanna share your last name with me?

Baby, I'm sure I do  
With you, love doesn't hurt  
Love is for better or worse, so I do  
I do  
Don't know what you see  
But you take me and all I carry, so I do
