

## Spend It

Summer Walker

Give me the last four of your credit card  
Buy back my love, you can keep your heart

Spend it on me, I love when you spend it on me  
Throw it to me, wrap me up in Givenchy  
Before, my love couldn't be bought  
But now, that's all I want  
Drip me in diamonds, that's how you make it right  
Drape me in silk and we would never fight, no, no  
Before, I just wanted love  
But now, I just want you to

Spend it on me  
Go right ahead and spend it on me  
Go right ahead and spoil me, baby  
Buy back my love  
Keep those sweet nothings from me  
They don't mean nothing to me  
Diamonds and pearls, I'm that type of girl now  
I want your black card, you can keep your heart

Whisk me away, away from all of my pain  
What's the point of having a heart in this world?  
Ashamed and played, I just wanna be a girl someday  
I don't wanna think  
Don't make me a fool, make me a pretty woman  
I'm a damsel in distress, my love  
Before, I just wanted love  
But now I just want you to

Spend it on me  
Go right ahead and spend it on me  
Go right ahead and spoil me, baby  
Buy back my love  
Keep those sweet nothings from me  
They don't mean nothing to me  
Diamonds and pearls, I'm that type of girl now  
I want your black card, you can keep your heart
