

Rich sex
Brand new
Tesla
I'm feeling brand new
I like stunting on my friends, when I watch
And the doors come up like my legs
In the middle of the night on the gram
And I'm flexing for life
I know I be on some crazy shit
But I love to, love to feel so weak in the knees

Oh, like SWV
I love it raining on me
I love it when you touching on me
It's like water, oh, no, don't drown
Oh, like SWV
I like sexing in the backseat
I got seven days to make your knees weak
Get it right tonight, to make sure that you don't leave me

You-you-you know
You wouldn't leave me
You-you-you know
You wouldn't leave me (Yeah)

What kind of love is it that you're channeling? (Ooh)
I'm hurting, this her thing, she could have it
Obsessed with the pussy causing havoc
Am I the first one tonight to throw you backwards? (Ooh)
Spread your legs, grab your head till your back hurts
If all things are right then let's do that first
You told me what he did and I know that hurts
And I know you love him, but I really need you closer
With my tongue inside and things get hot, closer
Ain't far right now, pulling up to my spot like, closer
Touch you up and feeling your thighs like, closer
Once I give you this dick, I'ma ruin your life

Oh, like SWV
I like sexing in the backseat
I got seven days to make your knees weak
Get it right tonight, to make sure that you don't leave me
