

Bella's Interlude

Summrs

Aye

No, I couldn't believe that shit you told me
We fell in love and then you just had to leave
Yeah

We under the moon, we under the moonlight
The sky is so blue
Tell me it feel right
I'm up in the club
Looking at them
And thinking about us
Where are you at?
I know we gotta have trust
But I need you back

Can you tell me something?
Can you let me know something?
Can you tell me something?
Can you let me know something?
Can you tell me something?
Let me know something?
Is you straight?
Bae, how was your day?
You know I miss you bae, hey, hey
Wouldn't lie to your face
I'll tell you straight to your face
You know that I love you
Until we leave this place
Baby let's go get lost and never go back
Aye, I'm off of the pills
'Cause I'm stressing bae
Thinking 'bout you
Can't get you out of my head

Love you Summrs
Oh, oh, oh, oh, oh, oh
