

# Can't Let U Go

Summrs

Ah, aye, ah  
(XanGang)  
Ay, yeah, aye

If I ain't off them drugs, I don't feel like myself  
All I need is your love, don't want nobody else  
You say I make you feel something you never felt  
Baby girl you're my everything can't you tell?  
And I can't let you go, oh, no, no, no  
I can't let you go, oh, no, no, no  
I can't let you go, oh, no, no, no  
I can't let you go, oh, no, no

Fifty shots in my blitz, if I buss then I bet I don't miss  
Hoes in and out, we lit like a swish'  
Wanna pay me, boy, so why would you diss  
Baby girl, yeah you know you the shit, yeah, hit as it gets  
Let's stake a ride, take a trip, top floor in the Ritz

If I ain't off them drugs, I don't feel like myself  
All I need is your love, don't want nobody else  
You say I make you feel something you never felt  
Baby girl you're my everything can't you tell?  
If I ain't off them drugs, I don't feel like myself  
All I need is your love, don't want nobody else  
You say I make you feel something you never felt  
Baby girl you're my everything can't you tell?  
And I can't let you go, oh, no, no, no  
I can't let you go, oh, no, no, no  
I can't let you go, oh, no, no, no  
I can't let you go, oh, no, no

Summrs, haha  
Bella I need you, don't need nobody else  
When I first met you, girl, you just made my heart melt  
I'm just ridin' in LA, you don't need no seatbelt  
'Cause Imma hold you tight, baby, you ain't goin' nowhere  
Said you want me to stop them percs, but baby girl no I can't  
Cause when I'm without you girl, I feel like I'm finna faint  
Baby, let's get it in, let's go all night  
We ain't riding from the back, ride on that part  
Baby girl, you're so perfect, we see eye to eye  
And we off them drugs, yea I'm feeling so high  
Baby girl, I know you like, baby girl, do you like?  
If I pour up these shots, shots of this wine  
Goin' through these withdrawals, thinkin' 'bout you all night  
Thinking to myself, how the fuck did I make you mine?  
We can talk about anything, and you ain't even gotta lie  
You ain't even gotta lie, I'm not tryna fuss and fight
