

## Fatcake <3

Summrs

I forgot to call you on birthday  
I can see that pretty smile up on your face  
I can see it from a mile away  
I am not the type to take you on a date  
But when I met you, all that changed  
I don't think I'll ever find a one like you  
And you changed my life, and I know what to do  
When I met you, it was so great  
We had the best sex, it made my day  
And I don't always gonna be my bae  
I remember you told me always gonna be first place  
There's a lot that you finna see, baby you're special  
You'd rather touch on me than  
I've realized you are everything I'm missing  
Baby girl you have my attention  
I love when you sing to me  
I remember those nights we been on the phone

You mean so much to me  
I believe in you, you believe in me  
No matter you're special to me  
A heart is a house of love  
that it will take two of us to break apart  
My heart, my heart, it belongs to you
