

Right now, I need you in the club
Better pipe down, before my niggas show up
I'm off a perky, I don't even pour up
Go, go, go!

Kickin shit, in the whip
Expensive shit, Takahiro lens
V in the back, "Friends" in the front
But I'm alone, no one
How do you do it like that?
I'm on some new shit like that
My cup polluted like that
My bitch exclusive like that
And I keep my nina in the new whip, why don't you hop up in it?
Yeah, yeah, oh, oh

Came in with it, that nigga a lick
Smokin' on gas got me higher than a bitch
Fuckin' this hoe got me tired than a bitch
Remember I used to be shy than a bitch
My ex bitch tryna fuck on me now
She see me count up these racks she like "wow!"
Feel like I'm floatin', I'm up in the clouds
Pass in the whip, and let's go for a mile
Baby girl, I love to see your smile
Love to see you up not down
He don't fuck with you, I'm sprayin' them rounds
M3 with Benji ridin' around
We was in the hotel room
Fuckin' up in the bathroom
She suckin' me up like a vacuum
I love you, know that's true

Kickin shit, in the whip
Expensive shit, Takahiro lens
V in the back, "Friends" in the front
But I'm alone, no one
How do you do it like that?
I'm on some new shit like that
My cup polluted like that
My bitch exclusive like that
And I keep my nina in the new whip, why don't you hop up in it?
