Miles On U

Summrs

(You never showed up)

I just wanna take you down
Girl, you deserve miles
With your million dollar smile
I just know you got miles

You got miles, you got miles, you got miles on you
You got miles, you got miles, you got miles on you
You got miles, you got miles, you got miles on you
You got miles, you got miles, you got miles on you

I ain't trippin', know you got some miles on you
I might spend a whole house on you
She got in the morning
Girl, watch when I put these diamonds on you
She gon' show it to the world, I like all the girls, I like all the girls
My girls like girls, rockin' Chanel pearls, yeah

Say she out every weekend, have a lot of parties, oh
So we out in Calabasas, drinkin' on Bacardi, oh
Working hard shit, college student in a push to start it, oh
But let's cut this party, take it to the room, we gon' go retarded, ooh
Paint a vivid picture on your fucking face, I'm a pure artist
Got her wantin' to take me out my robe
When I met a bitch from the show
She say two tones, two tones, baby made it in Vogue
Give a fuck if you was Katy Perry, I'm tryna get to that dough

I ain't trippin', know you got some miles on you
I might spend a whole house on you
She got in the morning
Girl, watch when I put these diamonds on you
She gon' show it to the world, I like all the girls, I like all the girls
My girls like girls, rockin' Chanel pearls, yeah

You got miles, you got miles, you got miles on you
You got miles, you got miles, you got miles on you
