Summrs

Love you Summrs

Baby, I fuck with you genuinely
Imma love you till the end of me
Leave our past in the history
Girl I know that you into me
Baby girl fuck our enemies
No, we not rich but we finna be
I love this tranquility
Hop out of the limousine
I know, I know that they feeling me
They do everything in they ability
Girl, you fucking with a celebrity
You got my heart racing with agility
We gotta have stability
The opiates they been killing me

Perc after perc, they killing me
Everybody like what got into me
Withdrawals after withdrawals
Baby girl they stealing me
Baby, I need you around, yeah, with me
I be smoking out the pound, yeah, like a chimney
You call me every Sunday means so much to me
And you write me every day, know you care about me
FaceTime you when I'm in the H
Babygirl I'm feeling great
Cause I know you straight today
And I love the way you taste
I heard some shit going on today
I know you doing drills with the K
You the realest bitch I've ever met
Had to take you to my place
Fuck these other hoes they not taking your place
You deserve everything, cause you kept faith
