

## The Outro

Summrs

2018 where it all started  
With a group of brothers where it all started  
All we would ever do is party  
Made a name for ourself  
Everybody look up to us  
Nobody couldn't fuck with us  
Float on every beat that we ever touched  
But shit different now, we all feel like the whole family just  
breakin' up  
And I miss that shit, it really do suck  
Sucks for everybody that was there from the start and watched u  
s all grow up  
Sucks that it really started happenin' when we first picked up  
a cup  
Ever since I signed through the last year, I gave up  
And people always want to see me down, acted like they give a f  
uck  
But they don't know the half, they don't know what we givin' up  
They don't know how deep this shit really is with us  
And don't think just 'cause I don't got the three letters on my  
gut it ain't all love  
It's always love  
I'll kill for every single one of y'all niggas  
It'll never be "Fuck y'all" and that's on Brenda  
This 4L, forever, no matter what  
That's it
