

Through It All

Summrs

Anything for you
You deserved it all
Dang we've been through
We've been through it all
Anything for you
You deserved it all
Everything we've been through
We've been through it all
Anything for you
You deserve it all
Everything we've been through
We've been through it all

The end of the time
First fell in love, first fell in love
I told you I want you forever
You told me that you wanna stay together
I told you baby it's forever
You was like whatever
I know you ain't shit
But I'ma give you a chance
Give you a chance, can you handle this?
Baby I love this
I think about this
You told me I can do this
Hold on to this
Yeah, 'cause we agreed to hold on tight and not give up

Anything for you
You deserve it all
Dang we've been through
We've been through it all
