Today

Ran through a lot of bitches but they was see-through  
Smoking out the pound, baby girl, I need you  
It's Lil SummrBangz, it's so nice to meet you  
And you so fucking fine, it's so hard to greet you  
'Cause you so fine, got a nigga nervous  
Do you do this shit on purpose?  
Without you, I'm worthless  
Without you, I have no purpose  
I see you in my dreams but I keep on searching  
When I see you, baby, you know that I'm flirting  
Please don't leave me, these other niggas worthless  
I need you for certain, baby girl, you know you perfect  
Today we gon' kick it  
Today, come over and watch a movie  
Today, today  
Today, yeah

Ayy

She snort drugs, all white, Ashley Tisdale  
Fuck a dumb ho and that pussy doing windmills  
Baby, kill me if you love me  
Off these milligrams, just fuck me  
I can't even focus, witchcraft lotus  
Smoking out that dope, bitch, my bitch Lindsay Lohan  
Coke and Cobain, die alone  
I feel dead when I'm at home  
Today, today  
Two hoes going two ways  
Baby, just take me away  
Make me feel great for a little in this place
