Woah

I've been fuckin' with you for a while, oh  
You know I love to see your smile  
You got your jewelry on when we fuckin', that's your style  
I really do think that I found the one  
Fell in love with your style  
Fendi and the Chanel, that's my style, yeah  
I never want to see you down  
I just hope you that you know that I'm down  
Really love your smile  
(Just hope that you know that I'm down)  
Really love your smile  
(I've been fuckin' with you for a while, oh)

Let's get a 'bnb for the weekend  
I don't know how to let my feelings out when I'm not singin'  
I would die for you, let that sink in  
Let your feelings out when you start drinkin'  
Don't this feel perfect?  
Don't this feel like you deserve it?  
Don't you feel nervous?  
Do you feel like this is worth it?

Really love your smile  
(I just hope that you know that I'm down)  
Really love your smile  
(I've been fuckin' with you for a while, oh)  
Really love your smile  
(I just hope that you know that I'm down)  
Really love your smile  
(I've been fuckin' with you for a while, oh)
