

# Passengers

Sumo Cyco

Now where are you going  
Cause you're going too fast now  
Ain't gonna last now  
Think you're gonna pass out  
Take a second get the map out  
And project this trajectory  
Racing in to an abyss  
Chasing the apocalypse  
No we're not done with that heading  
You've got me sweating  
Where is this ending up?

I predict the future and I  
I predict the future and I  
Think the options are falling flat  
I don't wanna die

This train is running off the track  
And there's no way I'm turning back  
And we're all passengers  
(yes we're all passengers)  
Look out the window  
It's a bird  
The world's on fire  
Have you heard?  
And we're all passengers  
(yes we're all passengers)

What you doing  
Cause you're doing it wrong man  
Ain't got the right plan  
We don't have time to place the blame  
Gotta work all night  
?  
To take a stand  
Lend a hand  
And fight for the promised land  
A mainaics at the controls  
I cry mutiny  
Save our souls

I predict the future and I  
I predict the future and I  
Think the options are falling flat  
I don't wanna die

This train is running off the track  
And there's no way I'm turning back  
And we're all passengers  
(yes we're all passengers)  
Look out the window  
It's a bird  
The world's on fire  
Have you heard?  
And we're all passengers  
(yes we're all passengers)

Tomorrow morning  
Sent this warning  
Hear me calling  
A storm is forming

Tomorrow morning  
Sent this warning  
Here me calling  
A storm is forming  
A storm is forming

And if I don't come back  
Again tomorrow morning  
I guess I know I won't  
Because I sent this warning  
I hope that when the lights go out  
You hear me calling  
The storm is forming  
A storm is forming

And if I don't come back  
Again tomorrow morning  
I guess I know I won't  
Because I sent this warning  
I hope that when the lights go out  
They hear me calling  
A storm is forming  
A storm is forming

I predict the future and I  
I predict the future and I  
Think the options are falling flat  
I don't wanna die

This train is running off the tracks  
Off the tracks  
Off the tracks  
This train is running off the tracks

This train is running off the track  
And there's no way I'm turning back  
And we're all passengers  
(yes we're all passengers)  
Look out the window  
It's a bird

Have you heard?  
And we're all passengers

Yes we're all passengers  
Yes we're all...

Yes we're all...
