

Baby Blue

Sundara Karma

I was always told there's nothing in the dark
No sign or indication of a hopefully spark
But somehow I then met you and you stole my heart
You said to take your number for a brand-new start
Now you wanna see me nearly every day
And life's been coming at me in a whole new way
It's slowly getting brighter with each word you say
Just wanna make you happy if you choose to stay

Come back with me tonight
Come back with me tonight

Blue
You're more than a dream come true
But you're breaking my heart in two
And there's nothing that I won't do
For my baby blue
All I think about is you
And I'm feeling just like a fool
'Cause there's nothing that I won't do
For my baby blue

Just like the colour of a perfect wave
Crashing down on top of me when we embrace
Melting any metal like the hottest flame
The only one to lift me out of this malaise
Friends say that I'm really at an all-time low
It's rushing in quickly, coming blow by blow
No point in getting silly, it's just how life goes
A tragic precondition that I can't control

Come back with me tonight
Come back with me tonight

Blue
You're more than a dream come true
But you're breaking my heart in two
And there's nothing that I won't do
For my baby blue
All I think about is you
And I'm feeling just like a fool
'Cause there's nothing that I won't do
For my baby blue

Blue
You're more than a dream come true
But you're breaking my heart in two
And there's nothing that I won't do
For my baby blue
All I think about is you
And I'm feeling just like a fool
'Cause there's nothing that I won't do

For my baby blue
You're more than a dream come true
But you're breaking my heart in two
And there's nothing that I won't do

For my baby blue
All I think about is you
And I'm feeling just like a fool
'Cause there's nothing that I won't do
For my baby blue
