

# Distance

Sundy Best

Tires are worn out  
I need new brakes  
I drove all night  
I had a fill-up tank  
All for a chance  
That I might see your face  
One night with you  
And all problems erased

But there's gonna be distance  
Between you and me  
Baby, I ain't scared  
It's meant to be  
We can make this thing work  
I guarantee  
But there's gonna be some distance  
Between you and me

I know that we said  
We tried this before  
But baby, I got scared  
And I walked out your door  
But now I'm back  
With my heart on the floor  
I have to see you tonight  
I ain't been more sure

But there's gonna be distance  
Between you and me  
Baby, I ain't scared  
It's meant to be  
We can make this thing work  
I guarantee  
But there's gonna be some distance  
Between you and me

Baby, I'll give you Kentucky  
If you give me Tennessee  
The car's in the shop  
They say it's gonna be  
A couple more days  
Before I can leave  
So scoot on over  
Make some room for me  
I'm gonna stay with you  
You're gonna stay with me

But there's gonna be distance  
Between you and me  
Baby, I ain't scared  
It's meant to be  
We can make this thing work  
And until I leave  
There'll be no distance  
Between you and me
