

Thunder

Sundy Best

I ain't shot to pieces for the very first time
And any thought of leaving ain't ran across my mind
I ain't had a hard life, just had a few hard times
I never thought the day would come, when I'd call you mine

All of my life I've wandered
Looking to slow down
But a lot of crooked roads
Are the only thing I've found
Well, you came along, you sang your song
Put my heartache in the ground
You shook me like thunder
I'll be damned if I'm leaving now

I couldn't have fought you even if I tried
With a thousand soldier army and a pistol by my side
You said hello and I said goodbye
Too hurt too deep to measure and scars two cars wide

All of my life I've wandered
Looking to slow down
But a lot of crooked roads
Are the only thing I've found
Well, you came along, you sang your song
Put my heartache in the ground
You shook me like thunder
I'll be damned if I'm leaving now

Well, you're all I hoped for, you're all that I've dreamed
You took away my lonely, you made my heart bleed

All of my life I've wandered
Looking to slow down
But a lot of crooked roads
Are the only thing I've found
Well, you came along, you sang your song
Put my heartache in the ground
You shook me like thunder
I'll be damned if I'm leaving now
