

# Baby Don't Cry

Sunflower Bean

Baby don't cry  
It's just the radio playing in the back  
It's playing sad, sad songs now  
Just like when we were kids

Baby don't cry  
It's the only thing that's got your back  
It's playing sad, sad songs now  
But I'm not sad, sad, sad

Cooking dinner for one  
Got The Caretaker on  
Lyrics make me exhausted  
I just need to clear my head

The TV makes me so mad  
And NPR is always telling me something bad  
Everything made in a boardroom  
Gets pumped straight into my head

Baby don't cry  
It's just the radio playing in the back  
It's playing sad, sad songs now  
Just like when we were kids

Baby don't cry  
It's the only thing that's got your back  
It's playing sad, sad songs now  
But I'm not sad, sad, sad

Give me that nostalgic tone  
The one that takes me back  
To an imaginary life  
With an imaginary past

But sometimes I feel  
I found something real

Baby don't cry  
It's just the radio playing in the back  
It's playing sad, sad songs now  
Just like when we were kids

Baby don't cry  
It's the only thing that's got your back  
It's playing sad, sad songs now  
But I'm not sad, sad, sad

It's playing sad, sad songs  
Sad, sad, sad  
Sad, sad, sad  
Baby don't cry  
Please don't cry  
Sad, sad, sad  
Sad, sad, sad

Baby don't cry

Please don't cry  
Baby don't cry  
Please don't cry
