

Fear City

Sunflower Bean

We walk down the boulevards
Open hands and open hearts
Conversations stop and start
Just like my favorite songs

Watch your head begin to fall
Rubber bands and rubber soul
I can't spend another night
Trapped in this stupid room

In Fear City
Waiting for you to come back
I'm Fear City
Trying not to crack

I know you won't take my advice this time
I know I can't make you change your mind

You get dressed without me there
'Cause you don't want me to care
Even though you know I know
What's going on

In Fear City
Waiting for you to come back
In Fear City
Trying not to crack

I know you won't take my advice this time
I know I can't make you change your mind
I don't wanna feel this way
I don't wanna feel this way
Don't want to listen to a word you say
So I'm coming out
Of Fear City
Of Fear City

We walk down the boulevards
We walk down the boulevards
Empty hands and empty hearts
I'm not looking back

I know you won't take my advice this time
I know I can't make you change your mind
I don't wanna feel this way
I don't wanna feel this way
Don't want to listen to a word you say
So I'm coming out
Of Fear City
Of Fear City
