

Human Ceremony

Sunflower Bean

I want you to stay here
I feel so much better on my own
We can sleep forever
Eyes feel so much better when they're closed

When the winter's over
We'll melt these together in a glow
From the ground uncovered
All our hopes were buried and bestowed

No way I cannot stay that close for too long
I know I can't decide
It's a human ceremony

I want you to stay here
I feel so much better on my own
Who is this, who is that, who is this, who is that?
Who am I to disagree when I don't know what from what I see

And in your right hand is the magic potion
You can drink the elixir now, don't forget your notion
Then in the lock tower is a silver bell
Time has come to ring it if you just knew how
With all the wise men I got you figured out
