In Flight

Sunflower Bean

Nothing ever changes in this town
The people die or they move out
Everyone but me

And I don't see a future anymore
It's been obvious before
To everyone but me

Life is short
And the cliffs are high
I don't have to close my eyes
To see us in flight

Life is short
And the cliffs are high
I don't have to close my eyes
To see us in flight

Everyone's a cynic in this world
They all want to take their turns
Turning it on me

And I thought that I saw you in my dreams
Flipping through a magazine
For something sweet

Life is short
And the cliffs are high
I don't have to close my eyes
To see us in flight

Life is short
And the cliffs are high
I don't have to close my eyes
To see us in flight

I thought I'd laugh
Then I cried
It's like I'm living in a lullaby
To see us in flight

I thought I'd laugh
Then I cried
It's like I'm living in a lullaby
To see us in flight

I thought I'd laugh
Then I cried
It's like I'm living in a lullaby...
