

## Roll The Dice

Sunflower Bean

Nothing in this life is really free  
Nothing in this life is really free  
Nothing in this life is really free

I want to roll the dice again and again, my friend  
Faith is child's play, chance is my religion  
I want to roll the dice again  
I want to roll the dice again  
Win big, win lose, that's just how the game works  
In this city money talks, that's just how the world works

Making rich another man  
Making rich another man

I just want to win...  
I just want to win...

Nothing in this life is really free  
Nothing in this life is really free  
Nothing in this life is really free

I want to roll the dice again and again, my friend  
Emptying my bank account chasing a real living  
I wanna roll the dice again (I just want to win)  
I wanna roll the dice again (I just want to win)

He's the deceiver, he tells you what you want and then he leave  
s  
You're the believer, nothing in this life is really free  
He's the deceiver, he tells you what you want and then he leave  
s  
You're the believer, nothing in this life is really free

I just want to win...  
I just want to win...
