

Tame Impala

Sunflower Bean

You always say what's on your mind
Now say what's on your mind
You always say what's on your mind
You always say...

There was a light in the attic but it did not exist
It overlooked a valley and it did not exist
I wish I could show you what I wish that I could show you

You always say what's on your mind
Now say what's on your mind
You always say what's on your mind
You always say...

You always say what's on your mind
Now say what's on your mind
You always say what's on your mind
You always say...

I wish I could show you what I wish that I could show you

You always say what's on your mind
Now say what's on your mind
You always say what's on your mind
You always say...
