The show must go on
The show must go on
You must go on

My body and head are spinning
How are you feeling now?
We are like a magnet
We hug and push aside

You make me crazy
And out of my senses
Yes, you may know that
You make me out of my mind

You make me dance
And drunk without alchole
Yes, you may know that
You make me a naughty girl

In a movie only for us
The real hero was you, baby
As always the way you do
Like a splendid hero
Do whatever you want

Even if you're mean
And you make me sad
You need to be yourself
Even if i'm not feeling well
And it's sad ending

The show must go on
The show must go on

You always fight to the bitter end
And try to cover everything
Why did you gave me wings and
Want me to fall

You say to me "good girl"
And make me take my tears back

Yes, you may know that
You know me

In a drama only for us
The real hero was you, baby
As always the way you do
Like a splendid hero
Do whatever you want

Even if you're mean
And you make me sad
You need to be yourself
Even if it hurts me
And it is sad ending

The show must go on
The show must go on

Do whatever you want
Even if you're mean
And you make me sad
You need to be yourself
Even if it hurts me
And it is sad ending

The show must go on
