

To Be Alone With You

Sunny Sweeney

To be alone with you
Just you and me
Now won't you tell me the truth
Ain't that the way it oughta be
To hold each other tight
The whole night through
Everything is always right
When I'm alone with you

To be alone with you
At the close of the day
With only you in view
When the evening slips away
It only goes to show
That life's pleasures be few
The only one I know
Is when I'm alone with you

They say that nighttime is the right time
To be with the one you love
Too many thoughts get in the way in the day
You're the one I'm thinking of

I wish the night was here
Bringing me all of your charms
When only you are near
You hold me in your arms
I always thank the Lord
When my working day's through
I get my sweet reward
When I'm alone with you
I get my sweet reward
When I'm alone with you
