1. This is something I can't hide Can't throw it away

Asus2

This is something I can't fake

G

They know you're away

Dsus2

They know how to break me

They know you're far away

2. If this sadness takes its place
 I'll free the space it needs
 I'm hiding in the place
 Where we share the days
 Where we share the nights
 Go through dark and light

R: Could you believe I'm waiting for someone

D A Hmi G

Could you believe I'm holding the night with my hands

D A Hmi G

Alone in the night on my own

Emi

I feel the pain inside me

G

Only you can heal me

- 3. This is something I can't take I feel so lame There is nothing in my mind But you all the way You rule every moment You're the air around me
- 4. Love's a lonely road sometimes I keep moving on Towards the moment you'll be mine A long way to go To where we belong We'll be there before long
- R: Could you believe...
