

Little Bit Love

Sunrise Avenue

Here we are to find something
Here we are to make a move
And I just need a little bit
I just need a little bit love
You just need a little bit love

I don't need a crown on my head,
Or a plan how to grow old
But I just need a little bit
I just need a little bit love
You just need a little bit love

And it makes me crazy
How I need you baby
No I can't escape it
Cause I just need a little bit love
Just need a little bit
I just need a little bit love
Just need a little bit

Can you see the bright horizon
Come with me to somewhere new
Cause I just need a little bit
I just need a little bit love
You just need a little bit love

And it makes me crazy
How I need you baby
No I can't escape it
Cause I just need a little bit love
Just need a little bit
I just need a little bit love
Just need a little bit

Only you, and you alone
Only you, can make me hole
Take my heart, my heart belongs to you

I just need a little bit love
Just need a little bit
I just need a little bit love
I just need a little bit

I just need a little bit love
I just need a little bit love
