

# Somebody Help Me

Sunrise Avenue

**Dmi B F Ami** (2x)

**Dmi** **B**  
I need to see you right now,  
**F**  
you blow me away,  
**Ami** **Dmi**  
there's really something here.

I need to hold you tight now,  
I want you in that way,  
I really think you feel the same.

We spent the night in my car,  
you messed my hair  
and I needed nothing more.

**Dmi** **B**  
Without you I am all right,  
**F**  
I love my life today,  
**Ami** **B**  
but I love you so much more.

**F**  
R: Somebody say when the fight is over,  
**Ami**  
my heart is all burned  
**B**  
and nothing can ease the pain.  
**C** **F**  
I'm falling into something I'm scared,  
**Ami** **B**  
it's all about her and I can't believe myself,  
**C** **Dmi**  
I behave like little girls - it's unfair!  
**B** **F Ami**  
When will this fairytale get easy,  
**B** **C**  
when will this doubt disappear from my head?

**Dmi** **B**  
I took the spoon off my cup,  
**F**  
like you always do,  
**Ami** **Dmi**  
'cause it means bad luck in love.

**Dmi** **B**  
It's been the day of my life,  
**F**  
but I'm thinking of you.  
**Ami** **B**  
I seem to miss some-one.
