## D A Hmi G D A Hmi G

D A

1. I don't want you around me today, I just said,

'cause I need air I don't wanna share

my life with you this way.

I didn't need to believe that we are something more,

you were just you and we weren't true  ${f G}$  until you walked away.

R: You know it's the right one, when you lose some-one

and you feel so ashamed how you just didn't get it right.

D A Hmi

It's always the right one, when you miss some-one

G

and it hurts like hell and you know you were just blind.

- 2. I would break every wall in the world to get you back.
  No, I can't sleep but I'm not awake,
  I'm feeling way too bad.
  I can't stand anything that reminds me of you
  and I just can't stand my friends anymore,
  who say that I'll be OK soon.
- R: You know it's the right one...
  - A Hmi G

I miss you every day much more than I can say.

A Hmi G

I hate the world today, it took you far away.

R: You know it's the right one... (3x)
