

The Whole Story

Sunrise Avenue

It's been hard to come to you lately **Am F**

It's been easier to stay away **Am F**

And I can't feel the heat **Am**

Not the one that we would / need **F**

There is something wrong **Am**

There's a wall in between **F G**

Wait we can't fall now **C G**

We cannot leave all we have **Am**

I know it hurts and feels bad **F G**

We should stay and just fight back **C G**

We had it ones all the way **Am**

The whole story **F**

And it will hurt but I'd be glad to take the pain **F G Am**

I've been trying to touch you the sweet way
You tried kissing me like the early days
But it's all very cold and it tears me apart
Yeah it's too damn cold
but we just can't stop now

Wait we can't fall now
We cannot leave all we have
I know it hurts, and feels bad
We should stay and just fight back
We had it ones all the way
The whole story

And it will hurt but i'd be glad to take the pain away **F G Am G**

Pain is a side of love we choose to live with you know. **E F**

After the rainy day the sun will shine so **E F G**

Wait we can't fall now
We cannot leave all we have
I know it hurts
Wait we can't fall now
We cannot leave all we have
I know it hurts and feels bad
We should stay and just fight back

We had it ones all the way, the whole story
And it will hurt but i'd be glad to take pain away
And it will hurt but i'd be glad to take pain
