

All Alright

Sunset Rubdown

I think a thousand years
I think a thousand years

I think a thousand years
have passed since I first
danced with you
Another thousand years
'til I remember to breathe

I remember the trees
outside your apartment
On Lapinlahdenkatu
When we were all alright
and the night was at our knees

Before we got bored
Before we swapped shores
And then the pig came
And played his rigged game
Before we fell for Virgo
But we were held by Scorpio
Then came the stranger
with dominoes for teeth

I think a thousand years
have passed since I first
danced with you
When we were all alright
and the night was at our knees

We have everything we need
That's more than most ghosts can say
Wouldn't have it any other way besides
Eclipsing it all
is a love I've never known

So send the rainmaker home
Put all the pieces in a pile
We fell for Virgo
Where else could we go???
So why not stay here
and lay a while

I think a thousand years
have passed since I first
danced with you
Another thousand years
'til I remember to breathe

And I remember the trees
outside your apartment
On Lapinlahdenkatu
Before the pig came
and played his rigged game
And we were all alright
and the night was at our knees
