

# Candles

## Sunset Rubdown

Call me if you need me  
I'm still here  
I am in the last place  
you went looking for me

Call me if you need me  
I'm still here  
I am in the last place  
that you found me

I'm the greatest  
When I'm basically  
just standing there  
...When I'm basically just standing there

Lighting candles  
In a room already filled with light  
...In a room already filled with light

So call me if you need me  
I'm still here  
I am in the last place  
you went looking for me

Call me if you need me  
I'm still here yea  
I am in the last place  
that you found me

Never knew  
how to use this big machine  
...Never knew how to use this big machine  
Cut the fingers clean off of my hand  
...Cut the fingers clean off of my hand

It's 2020  
and the world is getting going  
...It's 2020 and the world is getting going

There's a shadow of a hollyhock  
that's cast across the driveway  
But we're past all that now  
anyway I know

I'm the greatest  
Lighting candles in-between two mirrors  
...Candles in-between two mirrors

So call me if you need me  
I'm still here  
I am in the last place you  
went looking for me

Call me if you need me  
I'm still here  
I am in the last place  
that you found me

And falling underneath  
the weight of what was once there  
I am in the last place  
you went looking for me

Call me if you need me  
I'm still here  
I am in the last place  
that you found me
